

North Valley Hospital – Policy Circular

TEST DOCUMENT — Fictional administrative policy created only for RAG application testing.

Document Metadata

Document Type: Policy Circular | Circular No.: NVC-2026-17 | Version: 1.0 | Effective Date: 2026-09-01

1. Document Access

- Hospital knowledge documents are accessible only to authorized staff accounts.
- Staff must not share restricted hospital documents outside approved hospital systems.

2. PDF Upload Policy

- Only users with the Admin role may upload new knowledge-base PDFs.
- Uploaded files must be PDF format.
- The system should validate the file before adding it to the knowledge base.

3. Knowledge Base Update

- After validation, the document is processed, divided into searchable chunks, converted into embeddings, and indexed in the hospital vector database.
- A successful indexing operation should make the document available for retrieval by authorized staff.

4. Versioning

- When a revised document is uploaded, the version number and effective date should be retained in the document metadata.
- Older versions should remain distinguishable from newer versions when both are present in the knowledge base.

5. Support

Technical issues with document indexing must be reported to the system administrator.
